Sensor Card Mounting

Title: **Mainboard**

File: TopLevel.SchDoc

Sheet: 1 of 5

Revision: D

Time: 4:43:49 PM

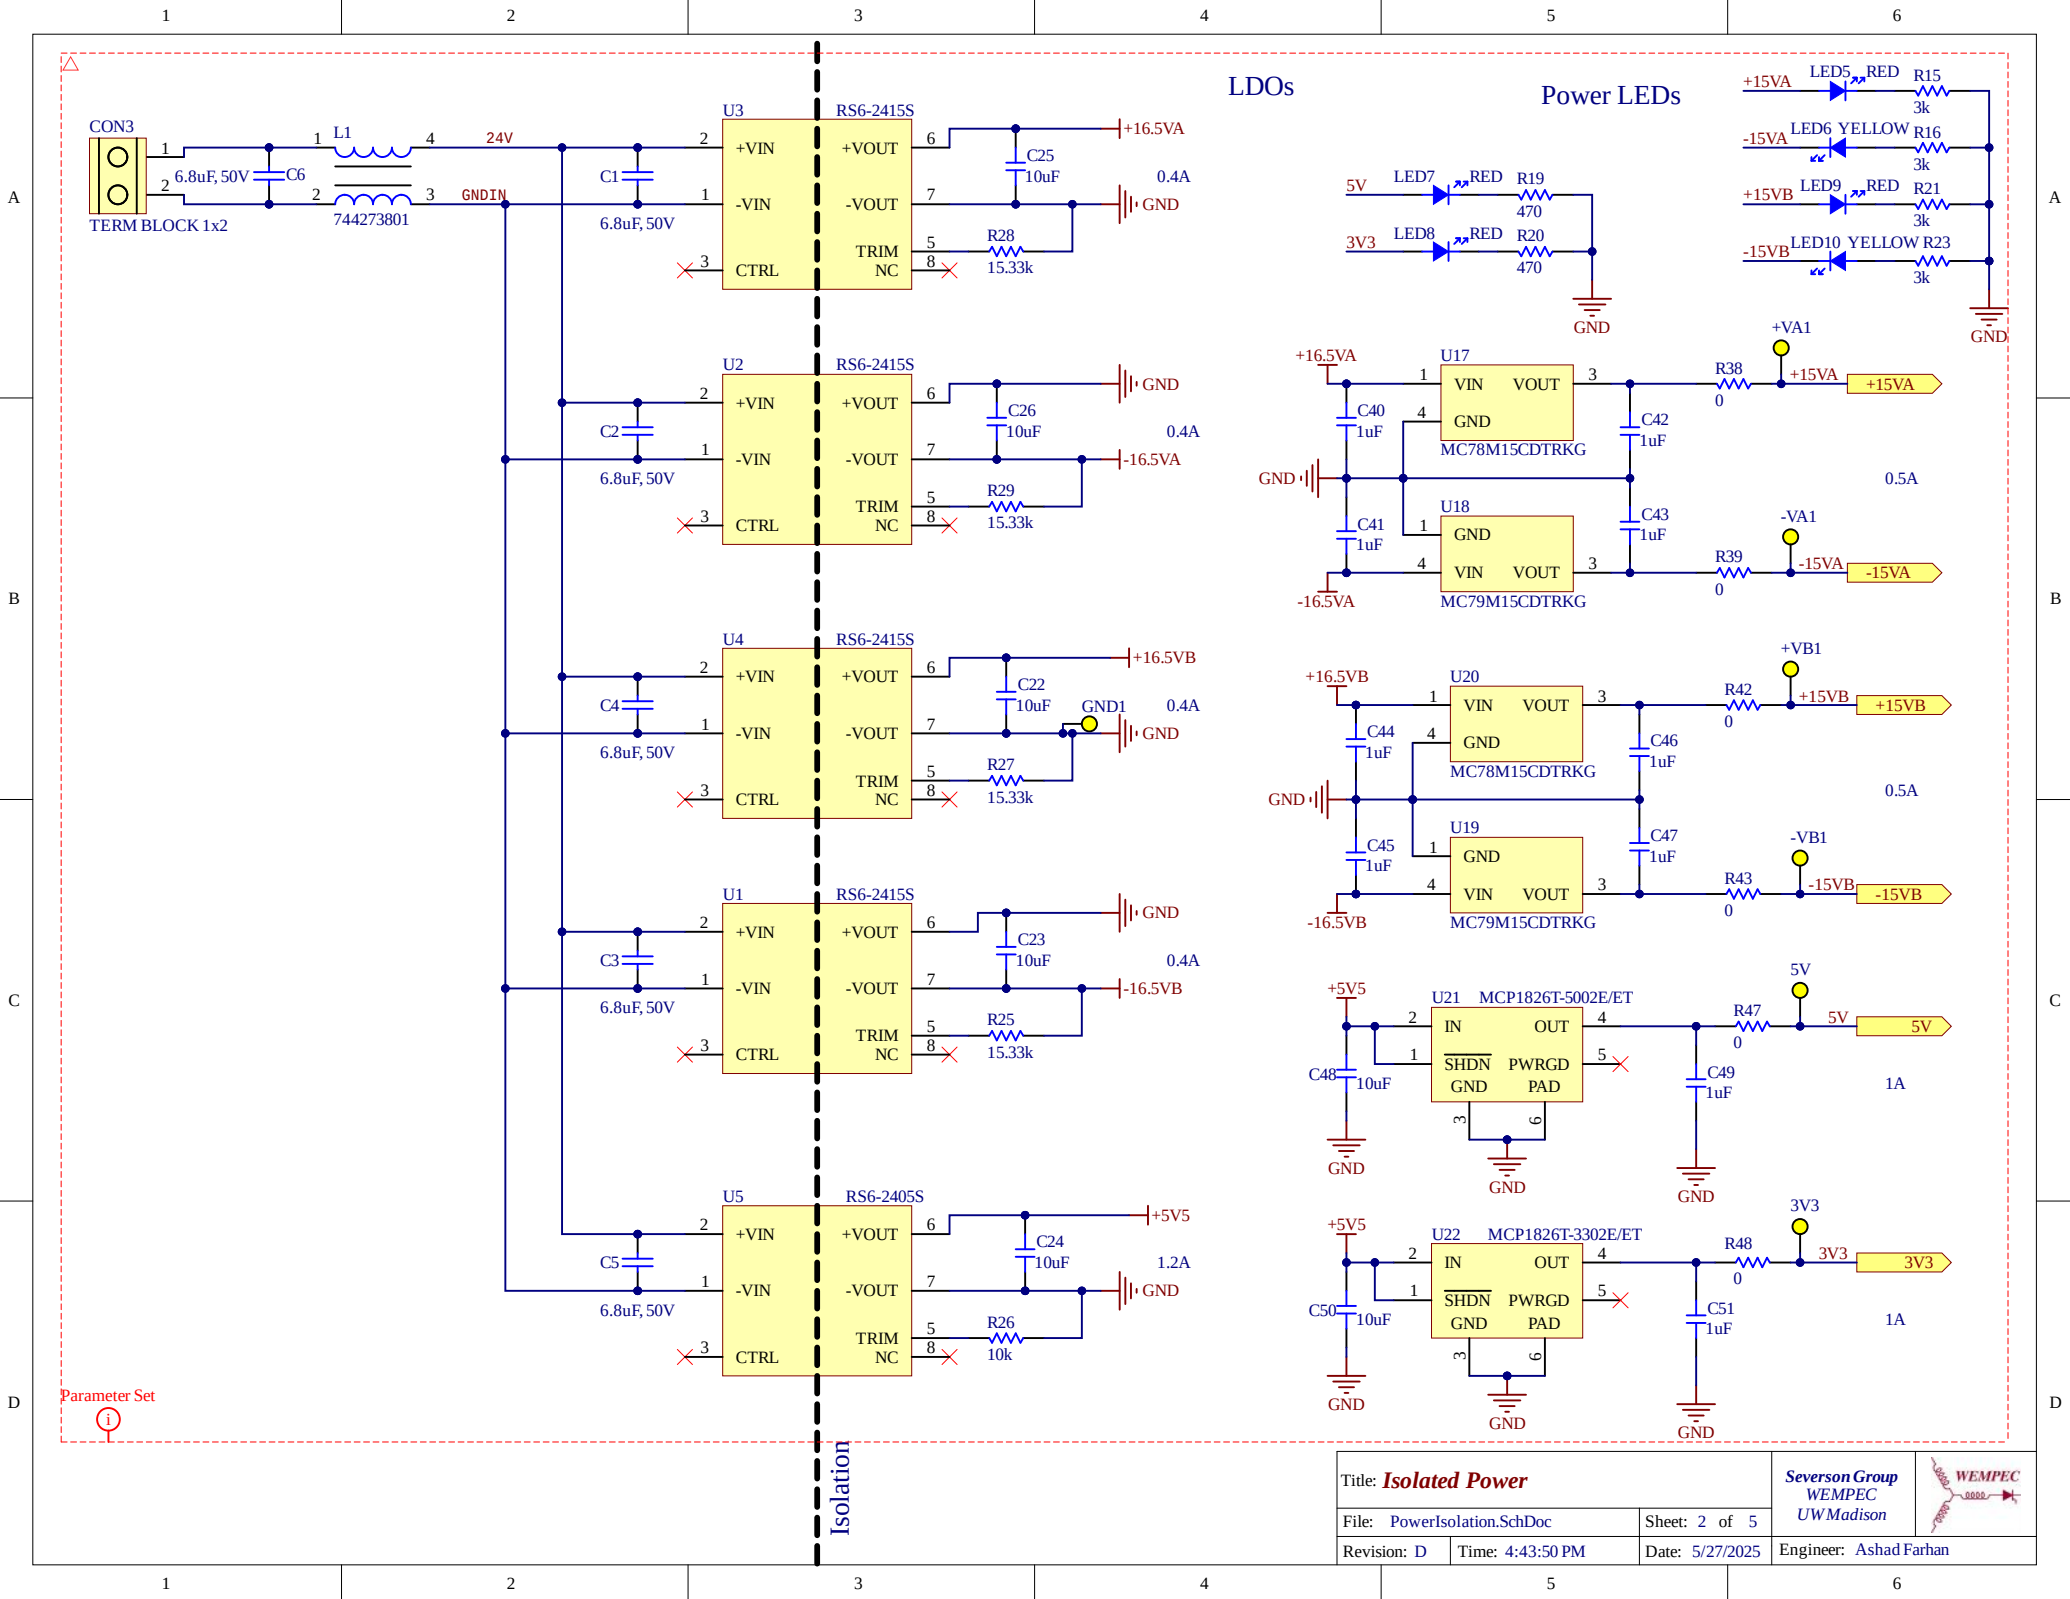

Date: 5/27/2025

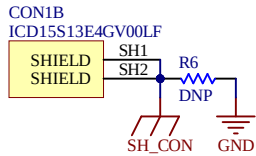

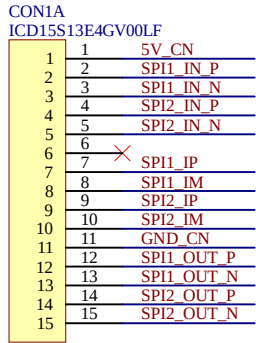

Engineer: Ashad Farhan

Severson Group
WEMPEC
UWMadison

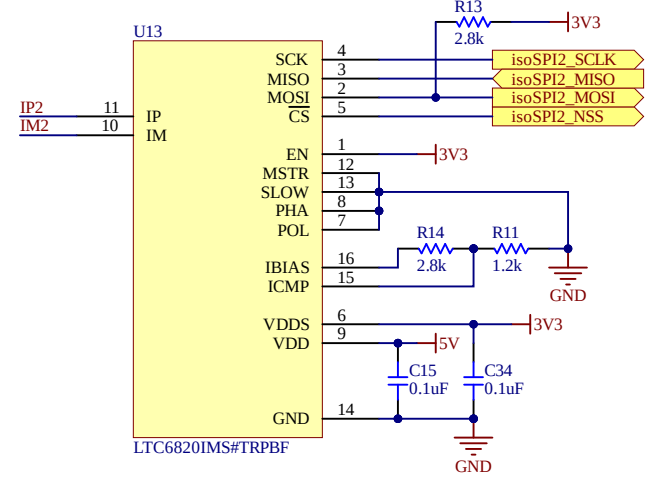

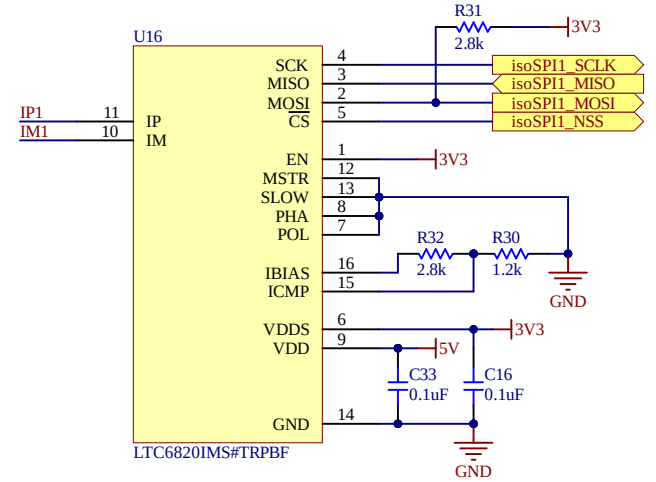

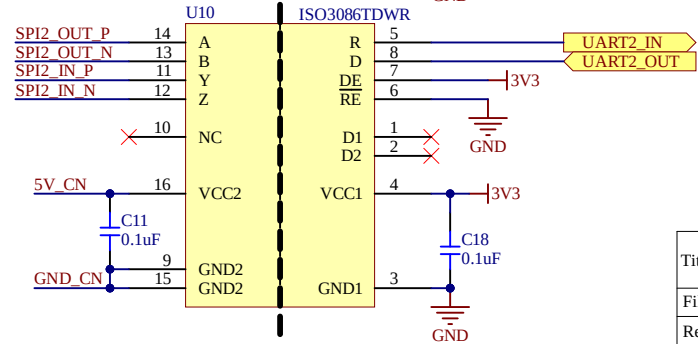

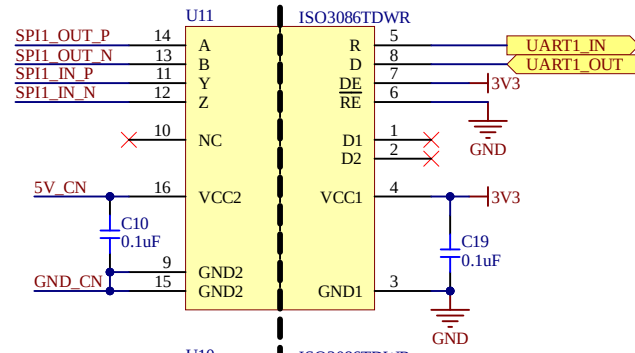

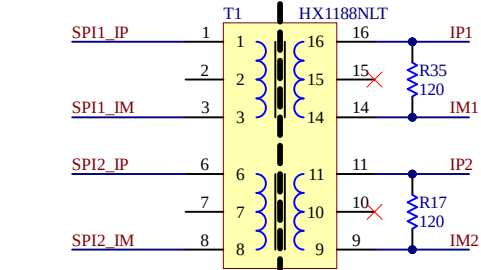

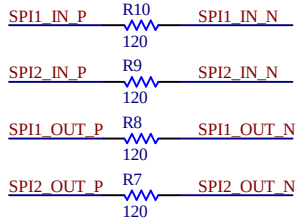

Mounting Holes

NOTE: HD15 CON labels match AMDC, so IN / OUT are flipped for this board.

IN is our output
OUT is our input

Programming Interface

Sensor Card Connections

Eight sensor cards, divided into four pairs, each pair has two cards connected in daisy chain connection

Processor Interface
